

# ADITYA ASHOK JADHAV

Full-Stack Engineer | Built production AI systems handling 5 databases | 85% error reduction | B.Tech CSE (CGPA 8.54)  
+91-7020513097 | [adityajadhav11193@gmail.com](mailto:adityajadhav11193@gmail.com) | [linkedin.com/in/adityajadhav119](https://www.linkedin.com/in/adityajadhav119) | [github.com/adityajadhav19](https://github.com/adityajadhav19)

## Professional Summary

Full-Stack Engineer who built a production AI system reducing failed queries by **85%** across **5 database engines** using RAG-based schema retrieval and self-healing SQL generation. Strong in system design — multi-tenant RBAC architecture, real-time systems, offline-first deployment. End-to-end ownership from schema design to deployed UI — Next.js/React, FastAPI/Node.js, AWS. Led a 5-person team at EduDiagno, shipping three production systems in 6 months.

## Technical Skills

|                   |                                                                                                                |
|-------------------|----------------------------------------------------------------------------------------------------------------|
| Frontend          | Next.js, React, TypeScript, Tailwind CSS                                                                       |
| Backend           | FastAPI, Node.js, Express.js, Django                                                                           |
| Databases         | PostgreSQL, MySQL, MSSQL, Prisma ORM                                                                           |
| AI/LLM            | OpenAI GPT-4o, LangChain, Vanna, Qdrant (Vector DB), Deepgram                                                  |
| Cloud & DevOps    | AWS (EC2, RDS, VPC), Docker, GitHub Actions, Vercel, CI/CD                                                     |
| Security & Auth   | RBAC, JWT, OTP Auth, Password Reset, Rate Limiting, CORS, Input Validation                                     |
| DB & AI Practices | Schema Design, Query/Index Optimization, Connection Pooling, RAG, Prompt Engineering, Vector Search, NL-to-SQL |
| Realtime          | Socket.IO, WebSockets                                                                                          |

## Professional Experience

### Backend Engineer & Team Lead

Jan 2026 – Jun 2026

EduDiagno Pvt. Ltd., Bengaluru

Remote

- Joined as one of **5 engineers** on a new AI hiring platform initiative; appointed Team Lead within the first week, owning technical direction across three production systems.
- Architected a schema-aware AI BI copilot (Vanna-based) across **5 database engines** (PostgreSQL, MySQL, MSSQL, Redshift) with memory-augmented SQL generation; built a self-healing pipeline reducing failed queries by **85%**.
- Designed a full examination platform from a single requirement into a complete system: **4-level RBAC** hierarchy, request-based enrollment, flexible scheduling, and offline/LAN deployment support.
- Architected a standalone Socket.IO server for real-time proctoring (tab-switch, copy-paste, multi-login detection), decoupled for independent scaling.
- Independently designed and built **Parakeet**, an AI interview copilot using OpenAI + Deepgram for real-time voice transcription — solo-owned end-to-end.
- Led AWS migration from on-premise infrastructure (EC2, RDS, VPC), containerized services with Docker, deployed CI/CD via GitHub Actions.

## Technical Projects

### Active Products – E-Commerce Platform

[activeproducts.in](https://activeproducts.in)

Personal Project

Next.js, TypeScript, Prisma, PostgreSQL (Neon), Razorpay

- Built and deployed a production e-commerce platform (catalog, cart, checkout, order tracking) with Razorpay payment verification/webhooks, Upstash Redis rate-limiting, and India-compliant legal framework (DPDP Act, FSSAI).

## Achievements

- Appreciation Letter** – EduDiagno recognition for independent backend architecture • **National Hackathon Runner-Up** – Rust-based HFT trading bot (YCCE Nagpur)
- ISRO ASCEND 2026** – Selected for India's aerospace/autonomous drone challenge • **Student Head (SIH)** – Coordinated 600+ participants
- Event Lead, Kalavihangam** (College Cultural Fest) – Led scrutiny and live event execution (timing, playlist, on-ground issue resolution) • Solo-owned department events/FDPs end-to-end (2nd-Final Year)

## Education

### Bachelor of Technology – Computer Science Engineering

2022 – 2026

MIT Chhatrapati Sambhajanagar

CGPA: 8.54

## Certifications

- Power BI & Advanced Excel • Tableau • Automation Anywhere • UiPath
